

CLOSING REMARKS BY HON. DR. KWAKU AGYEMANG – MENSAH MINISTER FOR WATER RESOURCES, WORKS AND HOUSING AND CHAIRMAN OF THE 34TH AGM OF SHELTER AFRIQUE ON 3RD JUNE 2015 AT MOVENPICK HOTEL IN ACCRA GHANA

Let me say how delighted I am to have presided over the 34th Annual General Meeting of Shelter Afrique in Accra. Personally I will say I learnt a lot within this short period of chairing this meeting. Shelter Afrique is an asset of the Continent and we should collectively ensure that it grows from strength to strength. From the report delivered by the Chairperson, it is clear to all of us that all is not well with our financial institution. We have been made to understand that no dividends will be paid to us and as shareholders this is certainly not palatable news.

I want to edge the Board of Directors to see what strategies they can apply to get Shelter Afrique out of the doldrums. Having said that I must commend colleagues for their active participation in the meeting. It is evident that Shelter Afrique means a lot to us. I am happy you did listen to me and all contributions were made in a very civil manner.

Let me once again thank delegates for electing me and my two colleagues to the Bureau of Shelter Afrique. I also wish to express my profound gratitude to all those who contributed towards the successful hosting of the 34th Annual General Meeting and pray that the Lord Almighty will see us through to the 35th AGM, to be hosted by Nigeria.

On this note I declare the 34th Annual General Meeting of Shelter Afrique duly closed.
